

Abhijit Rajendra Mali

(+91) 8956681012 | abhijitmali015@gmail.com |  [LinkedIn](#)

OBJECTIVE:

“A proactive and tech-savvy IT beginner with a solid background in Core Java and MySQL, and hands-on experience in Finance and Employee Management Systems. Currently advancing my skills as a Java Full Stack Developer through an internship. Passionate about problem-solving, innovation, and learning new technologies, I am eager to contribute effectively to an organization while growing professionally.”

TECHNICAL SKILLS:

Backend: C, Core Java, PHP, Hibernate, Spring, Spring Boot

Frontend: HTML, CSS, JavaScript, React.

Database: SQL.

Developer Tools: Eclipse IDE, VS Code, IntelliJ IDEA.

Operating System: Windows

TRAINING AND INTERNSHIP:

Java Full Stack Developer - From The Kiran Academy, Pune

"Completed an intensive training program as a Java Full Stack Developer. The program emphasized Java fundamentals, front-end technologies like HTML, CSS, and JavaScript, and back-end frameworks including Java Servlets, JSP, Spring, Spring Boot, and Hibernate. Additionally, it covered MySQL database management. The training involved hands-on projects providing real-world experience and mentorship to deepen understanding and application of these technologies."

EDUCATION:

N.K. Orchid College of Engineering and Technology Solapur.

Bachelor of Technology (E&TC) | CGPA – 7.3 2020- 2024

S.V.C.S. Junior College, Solapur

Higher Secondary Certificate | Percentage – 72.62% 2019- 2020

S.V.C.S. High School 84 Bhavani Peth Solapur.

Secondary School Certificate | Percentage – 74.80% 2017- 2018

PROJECTS:

Finance Management System:

- Contributed to the development of a comprehensive Finance Management System software as part of the final-year project, showcasing proficiency in Java technology.
- The system used HTML, CSS, and JavaScript for the front end, creating a user-friendly interface and adding functionalities such as input validation and real-time dashboard updates.
- Developed robust and scalable back-end functionalities using MySQL and Java.

Employee Management System:

- EMS is a database-driven application designed to manage employee data efficiently using SQL.
- Centralized employee information such as personal details, job roles, departments, salaries,

attendance, performance, and leave records.

- Key features included adding/updating employee records, calculating salaries, managing leave requests, and generating reports via SQL queries.

CERTIFICATION:

- Completed Java Full Stack Development Course – At Kiran Academy Pune.
- TCS iON – Career Edge – Young Professional
- NPTEL - Fundamentals of Artificial Intelligence
- Python Basics for Data Science - IBM
- Problem Solving Through Programming in C – NPTEL

EXTRACURRICULAR ACTIVITIES:

- Elected and served as a member of the Anti-Ragging Committee at N.K. Orchid College, Solapur.
- Completed Employability Skills Development training on Java and Database, conducted by Zensar Technologies.
- Completed a 60-hour course in Aptitude and Soft Skills, conducted by APTECH - Campus Recruitment Training at N.K. Orchid College.
- Assisted with event coordination and guest management at the college's "Rainbow" event.
- Winner of the department-level chess competition at N.K. Orchid College.
- District-level Netball player, demonstrating strong teamwork, strategy, and athletic skills.
